

KEC Consultant

PLUMBING SYSTEM

Table of Contents

Chapter 1 : Introduction of water supply	1
Water sources	2
Water quality	4
Domestic water use	6
Irrigation water use	8
Water tanks	9
Chapter 2 : Water supply demand	11
Water supply demand for different application	12
Water supply Fixture unit	13
Different between flush tank and flush valve	14
Example for estimating storage tank size for abuilding	17
Example for estimating flow through a pipe	18
Chapter 3 : Water distribution system	19
Pipe Types.....	20
Conventional system.....	23
Pressurized system	24
Variable speed system	25
Water piping accessories	26
Chapter 4 : Water pumps and applications	28
Centrifugal pumps	29
Axial flow pumps.....	30
Booster pumps.....	31
Vertical turbine pumps	32
Positive displacement pumps	33
Variable speed pumps	34

Chapter 5 : Design of internal network	36
Load fixture unit	37
Peak factor	39
Pipe velocity	40
Pipe friction	41
Pipe size equation	42
Example of sizing a pipe	44
Pumping station	45
Chapter 6 : Design of external network.....	47
Types of pipe material	48
Large pipe	49
Installation limits design	55
Washout chamber	56
Air vent chamber	57
Elevated balancing tank	58
Chapter 7 : Hot water system	60
Hot water demand.....	61
Electric water heater.....	63
Solar water heater	64
Boilers	65
Heat exchanger	67
Water heater calculation example	69
Chapter 8 : Swimming pool layout.....	70
Skimmer types	71
Over flow type	72
Pool schematic diagram.....	73
Heating system	76

Chapter 9 : Design of swimming pools	78
Inlets layouts.....	79
Skimmer layouts	80
Main drain.....	82
Surge tank.....	83
Filter	85
Circulation pump	86
Chlorination system	87
Vacuum system.....	88
Chapter 10 : Introduction of drainage system	89
Drainage source	90
Drainage quality.....	92
Drainage water treatment	94
Treatment water use	96
Septic tank	98
Chapter 11 : Drainage system in building	101
Pipe types	102
Single stack system	104
Two pipe system	105
Fixture trap	106
Drainage fixture unit	107
Drainage pipe accessories	109
Chapter 12 : External drainage network	110
Piping types	111
Manholes	115

Chapter 13 : Drainage in remote area	118
Septic tank	119
Seepage pit	121
Soak away	122
Chapter 14 : Lift station design and its application	123
Use and application	124
Type of lift station	125
Type of submersible pumps.....	126
Design process	127
Chapter 15 : Storm drainage	131
Rainfall intensity	132
Catch basin.....	133
Storm water reuse	142
